The Bleeding Disorders Association of South Carolina has been an invaluable resource for our family since moving to South Carolina. Because of events like Par for the Clot and donors throughout the community, we have had the support we need to endure challenging experiences. We've learned a lot from other families and from the educational support we've received from BDASC. We look forward to continuing our journey with this bleeding disorder community and helping others as we have been helped. Thank you for your continued support!
